Becoming More Missional for Christ can be an exciting and fulfilling responsibility of every Christian and every local congregation. It is also a Biblical principle and practice in the life of Jesus and in the New Testament church. This study workbook helps individual Christians focus on a wholistic approach to organizing their lives to become more missional for Christ and helps local congregations discover wholistic approaches to becoming more missional in the world through the Gospel of Christ. It is a **nine-week small group study** for local congregations, which is complimented by the teachers guide on CD-Rom, involves practical faith-sharing and homework exercises, and can be used with the World Methodist Faith-Sharing New Testament.

Workbook and CD-Rom can be ordered directly from **World Methodist Evangelism Institute (WMEI)** at 404-727-6344 or wmei@emory.edu or on our website at www.wmei.ws.
